History

MEPS is one of the premier engineering solutions providers and project specialists. Founded in the year 2011, MEP offers engineering solutions mainly for electro-mechanical activities.

For more than ten years, Team **MEPS** has excelled in engineering and executing a lot of projects in different sectors, including residential, healthcare, industrial, and commercial.

Our commitment to execute projects with the highest quality, on schedule, and within budget while adhering to excellent standards of health, safety, and environment has positioned **MEPS** to be recognized as an icon in electro-mechanical engineering.

With a professional, experienced, and devoted workforce and progressive management, **MEPS** is moving towards a better future.

Mission

Our purpose is to positively impact life styles of the communities we serve through consistent, timely, quality, efficient and value-added delivery of engineered, innovative and tailor-made technology solutions that constantly exceed expectations.

Vision

Our aspiration is to become a sustainably growing and profitable MEP & Low Current Engineering & Contracting service provider. We aim to achieve this by building effective and efficient operations in Egypt and consolidating **MEPS** as a recognized, quality-centric brand in all our fields of activities.

Skills

Team **MEPS** nurtures its success through its multidisciplinary expertise in the entire process of tertiary and industrial facility design and contracting. Our team's specialized skills are evident from design review through project management to the final delivery of turnkey projects.

Many of our senior engineers and staff have served as project managers, both internally and for diverse international clients, collaborating with other engineering firms and contractors.

MEPS Electromechanical Works' result-oriented culture is manifested through a "can do" attitude. It is driven by:

Drivers

Excellence:

We take care of the details that ultimately produce top-tier quality solutions.

Professionalism:

Our focus is on the job and client satisfaction.

Efficiency:

We invest time and effort in careful planning and implementation.

Innovation:

We encourage our team to think outside the box.

Team work:

We support an open exchange of information and resources with our clients and employees.

Adaptability:

We ensure that the evolving client needs are met with the highest standards.

Continuous learning:

Our team develops their skills through technical and managerial training.

Safety

Safety is paramount in our company. We are committed to ensuring the well-being of our team members and maintaining a secure working environment. Through rigorous training programs, regular safety audits, and the implementation of strict safety protocols, we strive to prevent accidents and prioritize the health of our employees.

Our dedication to safety is not just a policy but an integral part of our company culture, fostering a workplace where everyone can confidently contribute to the success of our projects without compromising their well-being.

Core Values

"Our core values are translated into every aspect of our business"

Sustainability:

We respect our environment and community. Our company cares for the environment. Conserving valuable resources is one of our many environment-friendly strategies. Maintaining sustainable operations is also part of our strategy to continue serving our community for many generations to come.

Integrity:

We trust and can be trusted. Integrity is the guiding principle in our business interactions. It is an unconditional commitment to respect the trust of clients and employees alike. We stand by what we say and take accountability for every decision we make.

Quality:

We always strive for the best. Delivering optimum quality services is a must. We do not aim to meet customers' expectations; we aim to exceed them.

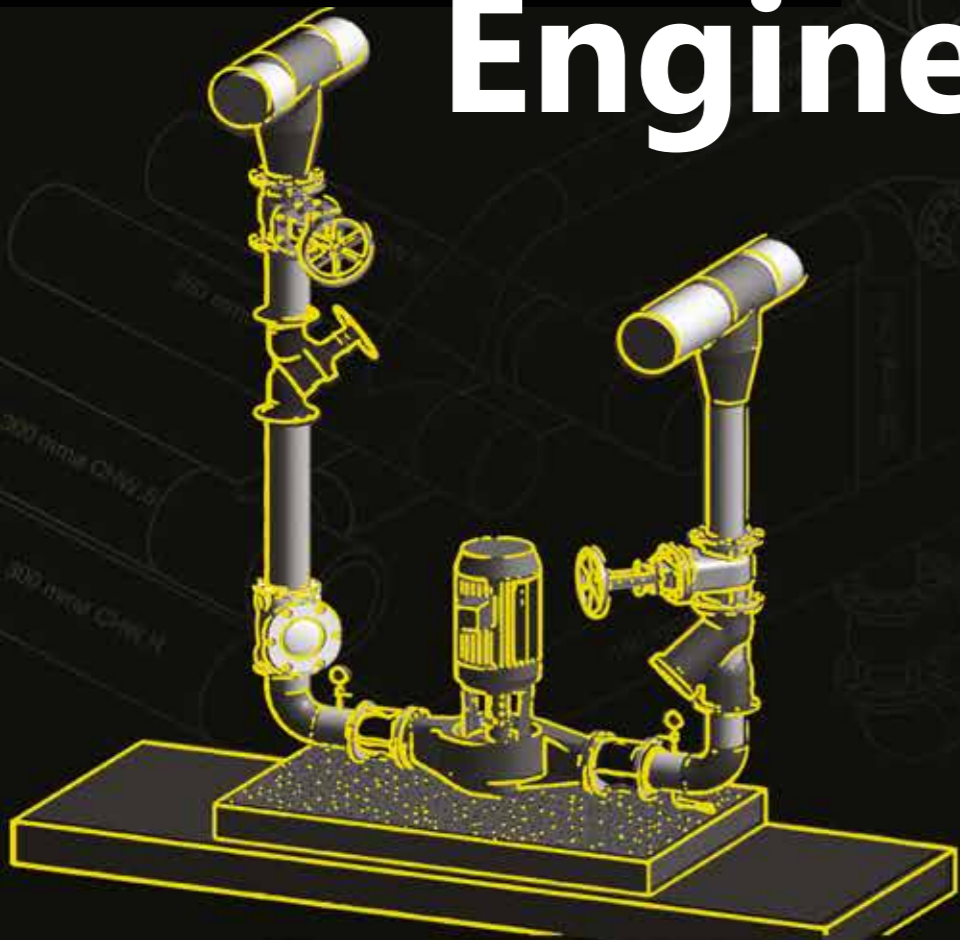

Human Capital:

We believe in our team. Our most valuable asset is our team. We cherish a learning culture and nurture the potential of our employees.

Innovation:

We will always find a way. Our company strives to continuously come up with solutions that create value for customers. We empower employees and embrace innovative developments in all our business processes.

Engineering

MEPS success stems from its dedication to providing customers with proven professional services and cost-effective solutions driven by transparency.

As such, the company focuses on delivering tailor-made projects with quality-centric workmanship.

MEPS has an in-house technical team offering round-the-clock services to ensure that our clients are satisfied from project inception until its final completion.

MEPS broad range of engineering services and solutions include:

- Conceptual and preliminary engineering.
- Evaluation of tender documents.
- Design review and value engineering.
- Project cost estimation.
- Equipment and materials procurement.
- Planning and scheduling.
- Detailed design & shop drawings.
- Inspection, quality assurance and control.
- Testing & commissioning.
- Operator training.
- Maintenance.

Mechanical

We specialize in the installation, maintenance, and repair of HVAC systems for homes, schools, hospitals, factories, and offices. Our primary focus is on providing thermal comfort and ensuring good indoor air quality.

MEPS is dedicated to installing systems with the perfect quality-cost balance, delivering superior air quality, minimizing energy costs, and facilitating easy maintenance. What sets us apart is our team's continuous and extensive training, unmatched in the industry. We meticulously follow blueprints and specifications for installation, conduct inspections and maintenance, install controls, test individual parts, and replace worn-out components.

Our expertise covers a range of systems, including:

- Ventilation and air filtration systems
- Chilled water systems
- DX/VRV systems
- Package units
- Extract fans
- Fresh Air Handling Units
- Ecology Units and Make-up Air Handling Units
- CCU
- GI and PI Ducting

Fire Fighting

The reliable protection systems we install serve one main purpose:

to prevent the interruption of services necessary for public welfare and avoid area-wide conflagrations, all while prioritizing the safety of life to the utmost.

Our expertise encompasses a range of systems:

- Fire suppression systems
- Fire extinguishers
- Fire hose reels
- Fire hydrant systems
- Automatic sprinkler systems
- Dry and wet risers
- Gas systems

Plumbing

MEPS ensures that every plumbing system installed is equipped with well-sized and securely connected pipes, drains, fittings, valves, valve assemblies, and devices for the proper distribution of water.

Our designers always ensure the implementation of global and local regulations and standards to guarantee the delivery of the best quality.

The plumbing systems that we specialize in include:

- Sanitary and drainage systems
- Water distribution
- Water treatment
- Variable and fixed-speed pumping systems
- Heating
- Solar Heaters
- Kitchen and laundry plumbing
- Irrigation systems and controls
- Sand traps and grease traps

Electrical

Low Voltage

MEPS engineers low-voltage systems that distribute power where needed, ensuring safety and reliability while providing optimal protection for personnel and equipment.

Our range of low-voltage distribution elements includes:

- Main Distribution Boards (MDB)
- Secondary Main Distribution Boards (SMDB)
- Final Distribution Boards (FDB)
- Cables
- Lighting fixtures
- Sockets

Emergency power systems are extremely useful in various settings, such as residential homes, hospitals, research laboratories, data centers, and telecommunication centers.

MEPS specializes in many emergency power systems, including:

- Generators
- UPS

Low Current

MEPS can supply and install all low-current systems, enhancing the safety, security, and productivity of both workers and facilities.

Contact MEPS today to maximize your system's potential.

Our range of low current systems include :

- CCTV monitoring systems
- Access control systems
- Door and gate phones
- Fire alarm systems
- Smoke exhaust systems
- Data communication systems
- Emergency lighting and signage systems
- UPS systems
- Nurse call and personal alert alarm systems

Maintenance

Services:

with the increasing maintenance issues that **MEPS** is experiencing, we are offering the following services that we have tailored to your needs.

Electrical Maintenance

MEPS offers electrical services. Our experienced team offers electrical repairs, installations, maintenance, upgrades for all commercial facilities, and complete services for facility of office building ,mall, medical , warehouse, retail store, and general facilities.

plumbing Maintenance

MEPS specializes in complete plumbing services, including repairs, installations, upgrades, and emergency services. No job is too small, too big, or too complicated, and our work is %100 guaranteed. We cover kitchens, washrooms, and emergency sprinkler systems.

HVAC Maintenance

Need help with your HVAC system? We install and repair all brands and models, providing regular maintenance plans to keep them running smoothly.
